

Huw Jones Consulting

Experience of working with communities

I have a range of experience of working with communities in different ways. I have undertaken local community consultations connected to housing developments. I have advised individual Tenants and Residents Associations, and umbrella groups (Leeds Tenants Federation) on housing strategy and policy issues, and on presenting tenants interests in dealings with the local authority, housing associations and developers. I have undertaken local housing needs and market assessments with Parish and Town Councils to establish local housing needs and provision issues and identify the best options for meeting those needs.

I can offer assistance to community organisations with identifying clearly what housing needs exist in their locality, what forms of housing provision would best meet those needs, how they can build a case for funding and support for housing development, and advise them on how best to present themselves and their case to local authorities, funders and housebuilders

Involvement in community led or self-build developments (especially housing projects)

I have no direct experience of involvement in such projects but have in previous work provided support to Community led organisations (e.g. LATCH and Canopy in Leeds)
